LEITH SIGNALS.

The signals hoisted at the end of the Pier at Leith, to shew the depth of the water, are as follows:—When the ball is at the top of the mast, the depth of water is ten feet—the same with a pendant underneath, eleven feet—the pendant above the ball indicates twelve feet—two balls, thirteen feet—two balls, with pendant below them, fourteen feet—the pendant with the two balls below it, fifteen feet—the pendant betwixt the two balls, sixteen feet—a tricolor flag, seventeen feet—the same, with ball above, eighteen feet—the same, with ball below, nineteen feet. And whenever any of the above signals are placed half-mast down, the water is half a foot deeper than as above stated.

NOTE RESPECTING THE CALENDAR.

In calculating the time of the Sun and Moon's Rising and Setting, Horizontal Parallax and Refraction have been employed, so that the times indicate when their centres appear in the horizon.

The Tables employed in calculating the times of High Water, are the result of twelve months' observations of the tides at Leith. And to those Tables of the Semimenstrual Inequality, or the Mean Intervals between the Moon's transit and the time of High Water during each Lunation, used as a first approximation, have been applied the corrections due to the Sun and Moon's declination and distance, obtained from nineteen years' observations of the tides at the London docks. See "Philosophical Transactions," 1834, Part 2.

The whole is shewn in mean time, or that which is indicated by a well regulated clock, apparent, or solar time, being that which is shewn by a sun dial, which, on account of the unequal motion of the sun in right ascension, &c. is sometimes faster, and at others slower than mean time. The difference is shewn in the column entitled, Equation of Time, for each month, which must accordingly be added to or subtracted from mean time as directed, in order to reduce it to apparent or sun dial time.

GRAY'S

ANNUAL DIRECTORY.

SMALL EDITION.

A VARIETY OF INSURANCE AND MISCELLANEOUS ADVERTISEMENTS.

ENGLISH AFFIDAVITS.

MR JOHN GILMOUR (of Lawson and Gilmour, W. S. 33, London street) has been appointed Commissioner in Scotland for taking AFFIDAVITS in the Courts of Common Law in England.

This appointment saves parties the expense of proving, in England, the Signature of the Magistrate before whom the Affidavit is made in Scotland, and that such person is a Magistrate.

MR SPENCE, SURGEON-DENTIST, No. 50, GREAT KING STREET, respectfully assures those suffering from TOOTH-ACHE, that, during an extensive practice of upwards of Twenty Years in this City, he has, in *Nineteen* out of *Twenty Cases*, found the extraction of the Teeth affected quite unnecessary, and that his method of Stopping, to which he has devoted much time and attention, enables him to give *Immediate Relief*, and to render the Teeth useful for many years.

Deficiencies of Teeth and Palate supplied, and every Operation of Dental Surgery performed, on the most approved principles, and moderate terms.

DENTAL SURGERY.

MR CORBET, Surgeon Dentist, begs respectfully to intimate, that he continues to practise at No. 59 Queen street.

Mr C. having been for twenty years with Mr Nasmyth, and fifteen years his first Assistant, trusts that the long experience he has had in such eminent practice, combined with strict attention to business, will obtain for him a share of public patronage.

Advice to the poor gratis from 9 to 10 morning.

Edinburgh, May, 1836.

ARTIFICIAL TEETH.

MR MEIN, SURGEON-DENTIST, 102, GEORGE STREET, (formerly with Messrs Clark and Howard, London,) respectfully acquaints the Nobility, Gentry, and his Friends, that he continues to fix NATURAL, ARTIFICIAL, and MINERAL TEETH, on his improved principle, without the least pain, from a single Tooth to a complete Set, which he guarantees shall restore to the wearer every comfort in articulation and mastication, and at the same time preserve the original form of the mouth. The ANODYNE CEMENT STOPPING for decayed Teeth is strongly recommended. Terms moderate.

Advice to the poor *gratis*, from 9 to 10 morning.

LONDON NEWSPAPERS.—LATEST EDITIONS ordered direct, and regularly sent, at the *same charges as in London*.

JOHN SUTHERLAND.

Edinburgh, 12, Calton street.

BAILDON'S INDELIBLE MARKING INK, which cannot possibly be effaced without completely destroying the texture of the cloth; it is therefore confidently recommended to the notice of the Public. Prepared only by H. C. BAILDON, Chemist, 73, Prince's street, Edinburgh; and sold also by the principal Druggists and Stationers in the United Kingdom.—Bottles, 1s. 6d.; and Cases, containing double the quantity, very conveniently put up, 2s. 6d. each.

STATIONERY AND MUSIC WAREHOUSE,
No. 30, BERNARD STREET, LEITH.

PHILIP WATT, Stationer and Music Seller, No. 30, Bernard Street, has at all times on hand an extensive Assortment of ACCOUNT BOOKS, consisting of Ledgers, Journals, Day and Cash Books, manufactured of the best materials and workmanship, and bound in the most substantial manner.

WRITING PAPERS in great variety, from the lowest to the finest qualities; together with every other article in the Stationery trade, of the first quality, and on moderate terms.

WRITING INK of a superior quality.—P. W. respectfully intimates to his Friends and the Public, that, in consequence of the very general preference that is now given by bankers, merchants, and others, to Steel Pens, he has been induced to procure the manufacture of a Very Superior Ink, expressly suited to the Steel Pen, being more fluid than the common ink, not liable to thicken whilst in use, does not corrode the pen, and is, at the same time, of a *deep and permanent black*, which cannot be expelled without injury to the paper or vellum, *is warranted to retain the colour*, and suitable for the copying machine. Sold in bottles at 6d. 9d. and 1s. 6d. each. Sold, also, by Mr HUGH WATT, 44 Leith Street, Edinburgh.

MUSIC.—P. W. returns his sincere thanks to his Friends and the Public, for the great increase of patronage which he has received in this department of his business; and begs to state, that his stock of Music is at all times very complete.

Leith, May, 1836.

MELBOURNE PLACE,

(*Opposite Bank Street.*)

ALEXANDER FERGUSON

Respectfully begs leave to express his sincere thanks to the Grocers, Apothecaries, and his numerous Customers, for the very large share of patronage which he has received in the West Bow and Lawnmarket, and takes this method of particularly directing the notice of the Public to his system of doing business, namely,

THE READY MONEY SYSTEM.

He buys with ready money, he sells for ready money, he suffers no losses from bad debts, and requires neither clerk, agent, nor traveller. At A. F.'s Establishment, these very expensive items form no part of the cost of manufacturing, and he gives the benefit of the great saving thus effected to those who buy from him, and is himself sufficiently compensated by the great increase of his sales.

The immense demand for A. F.'s Goods for these ten years past, is the strongest proof of their *cheapness*, as well as of their *superior quality*, and in both respects he is determined to maintain his reputation.

Wholesale Dealers, Agents, and Exporters, who buy with cash, may have from a *cwt.* to a *ton* of Confections carefully packed and ready on a few days' notice.

For Families, and those using Peppermint, Ginger, and other Stomachic Lozenges, A. F. prepares *double strong* and highly flavoured sorts, which are strongly recommended as excellent *tonics*; and he solicits those in the practice of making small presents, to make a trial of his *Superior Mixtures*, put up, after the French fashion, in *beautifully ornamented boxes*, containing quarters, half-pounds, pounds, two pounds, and four pounds. He makes no charge for the boxes, and feels confident that the quality and price will stand a comparison with those of any other confectioner in the kingdom.

ACIDULATED DROPS in pound, half-pound, and quarter-pound tin boxes, for which no extra charge is made.

ALEXANDER DEUCHAR & CO. Seal Engravers and Genealogists to His Majesty, 73, George Street, return their grateful thanks to the Nobility and Gentry for the liberal support they have hitherto received, and beg to assure them that every exertion will be made to maintain that character for heraldic correctness and superior workmanship, for which their establishment has been so long distinguished.

A. D. having for thirty years devoted a portion of his time to genealogical research, most respectfully solicits an inspection of his labours in that science, which he trusts, for correctness and elegant design, will meet with general approbation.

Gentlemen desirous of tracing out family connections, can be advantageously assisted in their investigations by A. D. & Co. as the very extensive library in their possession (above three thousand volumes printed, and MSS. on Heraldry and Genealogy,) enables them to do so on very moderate terms.

TAIT'S EDINBURGH MAGAZINE.

PUBLISHED MONTHLY, PRICE ONE SHILLING.

IN POLITICS, this MAGAZINE has but one aim—the good of the People. Its motto may be rendered, "Justice to the many, justice to the few, justice to all!" But although the independent tone of its political articles is one of the chief characteristics of *Tait's Magazine*, only a very limited portion of each Number is devoted to politics. Seldom is less than three-fourths of the whole space occupied by original papers, contributed by a number of the most distinguished writers of the day, some of them of politics widely differing from those of the Magazine. Among these have been the English Opium-Eater, the celebrated O. P. Q. the Author of the Exposition of the False Medium, Mr and Mrs Howitt, the Author of Corn Law Rhymes, Miss Martineau, Mr Leigh Hunt, the Author of Annals of the Parish, the Author of the O'Hara Tales, the Authoress of Mothers and Daughters and the Hamiltons, the Author of Anti-Draco, the Author of the Morayshire Floods, and other writers of high reputation in the literary world. In original Poetry, *Tait's Magazine*, ever since its commencement, has been allowed to excel all the contemporary periodicals. To the New Series, Tales and Sketches of Life and Manners have been regularly contributed by two of the most eminent female writers of the day; chiefly under the titles of *The Beggar's Wallet*, and *The Experiences of Richard Taylor, Esq.* The Magazine continues to be indebted to Mrs Johnstone for what Leigh Hunt terms "its admirable Summaries of New Books;" of which that well qualified judge signified his approbation, by announcing something of the same kind as a leading feature in the Prospectus of his *London Journal*. It has, in brief, been the aim of the Conductors of this Magazine to mix Political discussions of interest with Literature, and Information with Amusement, in such proportions as may be acceptable to a very wide circle of readers—to the ladies of a family as well as the gentlemen.

The volume of *Tait's Magazine* for 1835, although costing only Twelve Shillings, contains as much letter-press, by a number of the ablest writers of the day, as is given by the London Magazines and the Quarterly Reviews for *Thirty-six Shillings;* or as is contained in twenty volumes of Novels, as usually published in post 8vo. at 10s. 6d. each, or L.10, 10s. in all. To say nothing of condensation of matter, and variety of subject, each Number of *Tait's Magazine* gives, for *One Shilling*, more reading than is contained in a volume and two-thirds of a volume of a modern novel, at *Seventeen Shillings and Sixpence.*

WILLIAM TAIT, Edinburgh; SIMPKIN & MARSHALL, London; and JOHN CUMMING, Dublin. FUDGE!

By whom also the following are Published:—

In one very thick volume, 8vo. closely but beautifully printed, price Eighteen Shillings,

LECTURES on the PHILOSOPHY of the HUMAN MIND. By the late Thomas Brown, M. D. Professor of Moral Philosophy in the University of Edinburgh; with a Portrait, and a Memoir of the Author, by the Rev. David Welsh, Professor of Church History in the University of Edinburgh. *Ninth Edition.*

"Neither Bacon, nor Hobbes, nor Berkeley, nor Locke, possessed powers of mind so splendid, and so various, as those with which it pleased nature to endow Dr Brown. Brown is, beyond comparison, the most eloquent of philosophical writers; and to be eloquent on the most subtle and abstruse questions which can present themselves to the human understanding, is surely no slight distinction."—*Weekly True Sun. 15th Sept.* 1833.

HISTORY of SCOTLAND, by P. F. Tytler, Esq. Vol. V. 8vo. price 12s. containing the reigns of James IV. James V. and part of the minority of Mary. Of whom also may be had, Vols. I. to IV. at 12s. each.

"The entirely new light thrown upon the political intrigues of Scotland and her leading men, during the infancy of the unfortunate Mary, and also on the conduct of Henry VIII. in relation to them, to his views upon the independence of the country, and to his share in the assassination of Beaton, is perfectly extraordinary, and affords another proof of the strong necessity that exists of correcting the usual romance of history, by constant reference to contemporary and authentic documents. Mr Tytler has consulted the records in the State Paper Office, which have been undisturbed for three hundred years; and the result is a widely different version of the events, and a no less different picture of the actors who took the prominent share in bringing about or resisting the Reformation, and in all the memorable affairs of a distracted but exceedingly momentous period."—*Literary Gazette.*

In one large and closely printed volume, in 12mo, with a Map, and Thirteen Engravings of Scottish Scenery, price only 15s. handsomely bound, or 16s. 6d. 2 volumes.

THE PICTURE of SCOTLAND. By Robert Chambers, Author of the "Traditions of Edinburgh," &c. &c. Third Edition. To which are now added, *Directions for Pleasure Excursions; a Description of all the Watering Places; and a Complete Itinerary.*

SCOTTISH JESTS and ANECDOTES, to which is added a selection of choice ENGLISH and IRISH JESTS. Collected by R. Chambers. In royal 18mo, price 5s.

TRADITIONS of EDINBURGH; or Sketches and Anecdotes of the City in former Times. By R. Chambers. In 2 vols. foolscap, 6s.

"A most amusing book, full of the best kind of antiquarianism. It has had a great sale, and it well deserves it. Sir Walter Scott and Charles Sharpe have both communicated anecdotes of the olden time."—*Blackwood's Magazine.*

Extract of a Letter from Hamburgh, dated 15th February, 1833.

Removed from No. 9 WATERLOO PLACE, EDINBURGH.

A MOST COMPLETE AND EXTENSIVE ASSORTMENT OF TEA is at all times to be met with at the above Warehouse, varying in quality and in flavour from a rough strong family breakfast Congou, up to the fine fragrant Souchong and delicate Hyson, or evening Tea. As great fluctuations in the price of Tea are constantly taking place in consequence of the introduction of the FREE TRADE TEAS, a list of prices would be useless here; but as S. J. Hallam's undivided attention will always be directed to the selection of the best importations, in whatever market they may be found; and as he will invariably continue to sell at a very small profit, his Friends and the Public may rest assured of being always supplied with the best and cheapest Tea at 54 PRINCE'S STREET.

The following are among the advantages which this Company offers to the Insuring Public:

1st, The Rates of Premium, especially for ages under fifty, are the lowest ever hitherto published, in proof of which, a comparison is confidently invited with the Tables of any other Office in the United Kingdom.

2dly, The facilities afforded to all classes of insurers, by having it in their power to adopt either an *even rate* for life, an *ascendiny scale*, or a *descending scale*, as may suit the convenience of parties; or farther, an *alternative plan*, by which one-third of the even rate of premium (on policies for the whole of life) may remain unpaid, and be deducted from the sum insured at the end of life, with interest at the rate of four per cent.

3dly, The adaptation of the tables to any service, or to any country in the world; and it will be found that in foreign insurances, also, the extra rates charged are considerably lower than those of other offices.

4thly, The Insurance of persons of advanced age, and also the undertaking of risks that might be rejected by other offices at moderate rates, deduced from very extensive and accurate observations.

5thly, The great facility afforded for the transfer of policies, the Directors, instead of requiring assignments of these to be executed, in every case issuing a new policy in name of the intended assignee, on surrendering the former, and merely paying the price of the new stamp.

The following are selected from the even rates:

LIFE DEPARTMENT.

The Caledonian Insurance Company offers to the Public the security of an ample subscribed capital as a guarantee fund, together with all the advantages resulting from a participation of profits on the mutual assurance plan, without risk; while, for the convenience of those who prefer a CERTAIN future benefit at a LOW rate of premium, the Company grants policies, without participation, either for the whole period of life, or for short periods at corresponding rates of premium. In both, the rates are fixed as low as is deemed consistent with safety; and it is provided that, at the expiration of the first ten years, and afterwards of EVERY SEVENTH YEAR, the profits shall be ascertained by a careful investigation, and that FOUR-SIXTHS thereof shall be apportioned to each policy of five years standing and upwards, entitled to participate, and that according to the number of years such policy has existed.

ONE-SIXTH is set aside as a guarantee fund for the Life Policy holders, and eventually, at periodical investigations, apportioned among those entitled to participate, the remaining ONE-SIXTH is allotted for the proprietors of the Company, as a consideration for their having pledged their subscribed and accumulated Capital, in addition to the profits of the Life Department, as a farther guarantee to Policy Holders.

Payment of premium may be made yearly, half-yearly, or quarterly.

The Holders of Policies on the life of another are protected in the event of the party whose life is insured dying by duelling or suicide.

Liberal advances made upon Policies effected with the Company.

A fair price given to parties who wish to surrender their policies.

*** *No charge made for entrance money.*

THESE ADVANTAGES ARE NOT EXCEEDED BY THE TERMS OF EVEN THE MOST FAVOURED ESTABLISHMENT, EITHER FOR SECURITY OR LIBERALITY.

FIRE DEPARTMENT.

The Company insures property of every description on the most reasonable terms. A duty of 3s. per cent is payable to Government on all property insured against Fire, with the exception of Agricultural Stock, which is now exempt from duty. Prospectuses, with Tables of rates for both Fire and Life Insurance, may be obtained by applying at the Head Office, No. 13 Bank Street, Edinburgh, No. 51 Dame Street, Dublin, or at any of the agencies in Scotland, England, and Ireland.

This Society has for its basis, ECONOMY COMBINED WITH SECURITY—the terms of Assurances for Young and Middle-Aged Lives being much *lower than those of any other Office which gives a Bonus to the Assured;* and a full statement of its affairs is annually made to the Share-holders and Policy-holders, who have a control over the Society.

Three-fourths of the profits are now divided among those Assured for life on an equable scale, after the policies shall have been in force four years; but eventually the Shareholders will be paid off, and thenceforth *the whole of the profits* will be so divided.

The remarkable success and economy of its management are proved by the fact that a bonus declared up to 1833, gave to Policy-holders, on an average, 16 per cent upon the Premiums paid, notwithstanding the lowness of the rates.

Assurances for Life are effected either by equal rates of Premium payable during whole Life, or by higher rates of Premium payable during a limited period of years only. See Table No. I. Or by small Premiums at first, increasing every five years until the twentieth. See Table No. II. In fine, persons may join this Society by an Assurance in any way best adapted to their circumstances or wishes, and at rates as low as possible, compatible with security.

Endowments for Children, Assurances on joint Lives, Survivorships, and Survivorship Annuities are also granted.

No entry money, nor extra charge at entrance, except the stamp duty.

THIS INCORPORATION divides, septennially, the whole Profits amongst the Insured, who are guaranteed from responsibility. A return of Nine per Cent was made on the Premiums received from Candlemas, 1825 to Candlemas 1832; and this notwithstanding a more than average amount of Losses during that period.

The business of the Society has been gradually and steadily increasing since the adoption of the present system of dividing the Profits; and as the Losses during the current seven years will not, in all probability, be above an average, the Assured have reason to anticipate a still more favourable result at the next investigation.

All Town Risks of the first class, Dwelling Houses situated in the country, and Farm Steadings, are taken as Common Insurances, at 1s. 6d. per Cent. At the same rate of Premium, the Stock and Crop on any part of a Farm may be insured in One Sum, *without the Average Clause*; and, if preferred, the sum insured may be allowed to decrease Monthly or Quarterly, whereby a considerable saving is effected by the Insured.

OBSERVATIONS.

The principles upon which this institution is founded, have been adopted after a mature investigation of the practice of other Offices, and will be found to combine advantages not hitherto offered by any other Assurance Company, having a subscribed Capital.

The Capital subscribed by a numerous and respectable Proprietary throughout the Empire, affords security for prompt and certain Indemnity, without the responsibility attaching to Societies for mutual assurance.

The Company are bound, by the Deed of Settlement, to refer all disputed claims (where no fraud is suspected) to the decision of arbitrators, if required by the assured.

Life Policies of this Society may be sold, transferred, or mortgaged, without any notice being given at the Office; and in all minor articles the utmost liberality will be afforded to the Public, consistently with the security of the Company.

FIRE DEPARTMENT.

The Premiums charged by this Company on the three ordinary classes of Fire Insurance are (with certain exceptions) as follow—namely:

1st Class,	1s. 6d. per cent per annum,	*formerly* 2s.
2d do.	2s. 6d.	. . . . 3s.
3d do.	4s. 6d.	. . . . . 5s.

Other risks not falling within the above Classes, may be insured by special agreement.

The allowance of 10 per cent, which has been made on the Premiums paid on Policies of seven years' standing, is the surest proof of the unprecedented success of this Institution.

LIFE DEPARTMENT.

Independent of a reduced rate of Premium, as compared with other offices having a subscribed Capital, Insurers for the whole term of life are entitled, at the end of seven years, to participate in the profits with the original subscribers, either by an addition made to the amount of their Policies, or by a reduction of their future annual Premiums, at the option of the Insurers. The additions so allowed at the last septennial division amounted, on an average, to more than one per cent per annum on the sums insured.

Persons insured in this Office are allowed to pass by sea from one part of the United Kingdom to another; and also, in time of peace, to pass in decked vessels or steam-boats, from British to Foreign Ports, between the Texel and Brest (both inclusive,) without extra premium, or special leave of the Directors, as is usually required.

No additional premium required for Military Men, unless when called into actual service.

No charge made for Entrance Money or Admission Fees; and none for Policies beyond the cost of the stamp.

BY A RECENT DECISION of the Court of Directors, Persons who now effect Insurances with this Company for the whole Term of Life, will participate in the profits, after having paid FIVE ANNUAL PREMIUMS, without incurring the responsibility attached to Societies for mutual Insurance.

The BONUS of £1, 10s. per Cent per Annum, declared on Policies in the year 1831, was added to the Sums insured, and the present value of such Bonus may either be received by the parties, or applied in reduction of their future Premiums.

The BONUS on Policies now in force, including the Prospective Addition recently declared, amounts in many cases to TWENTY PER CENT ON THE SUMS INSURED, and will increase Annually, until the next general appropriation of profits, in the year 1841.

Policies effected before the 31st of January, 1837, will have the advantage of participating in the next General appropriation of Profits.

Every description of Insurance may be effected with this Company, at REDUCED PREMIUMS, when persons do not participate in Profits.

When persons wish to discontinue their Insurances from any cause, the Company will purchase their Policies upon equitable terms.

Prospectuses containing Tables of Premiums, and Examples of the different modes in which the Profits can be applied, may be had at either of the Company's Offices, or of any of the Agents in the principal Towns throughout the Kingdom.

LIFE SOCIETY.

ACCUMULATED CAPITAL £1,500,000.

This Society is founded on the equitable principle of mutual guarantee, the whole benefit of its business being enjoyed by the Members, in the shape of Bonuses added periodically to the sums insured. The Premiums (under 45 years of age,) are nearly 10 per cent below the usual rates.

Persons insuring with the Society thus obtain an immediate advantage in the lowness of its rates, besides the ultimate benefit of successive periodical additions to their Policies, arising from the division of the surplus capital. Three septennial Bonuses have already been declared, amounting respectively to £20, £24, and £25 per cent on the Amount of Premiums deposited—the calculation in each case being made upon the whole premiums paid from the date of the Policy.

The present Income of the Society exceeds £150,000 per annum, and the new Policies now issuing are in the proportion of Eight Hundred annually.

The subjoined list (exhibiting a few of the earlier Policies, with the additions thereto) will serve to shew the practical operation of the principle of the Society.

No.	Sum Insured.	First Bonus.			Second Bonus.			Third Bonus.			Total Claim on the Society.

3589	4999				465	2	0	1050	3	0	6514	5	0

A Fourth Bonus will be declared in July 1837.

The Insured are permitted, without any extra Charge, to visit any part of Europe situate between the Elbe and Brest, and no extra payment is demanded in name of Entry money, or to defray expenses of management.

Thus the Norwich Union Society, in present economy, and in prospective advantage, is fully equal to any similar establishment in this kingdom.

FIRE SOCIETY.

CAPITAL, £550,000.

This Institution is wholly distinct from the Life Society, and transacts every description of Fire Insurance business on the most liberal terms. The fulfilment of its obligations is guaranteed by a numerous and opulent proprietary, and the Insured, who are free from all responsibility, participate with the shareholders in the profits.

Expenses incurred by the removal of goods, in case of Fire, will be defrayed in proportion to the amount Insured.

Losses by Fire, occasioned by lightning, will be made good.

No charge is made for Policies, (unless the sum Insured is below £300,) nor for indorsements or alterations.

A dividend of 10 per cent is now paying to the Insured, on all premiums received by the Society for the five years previous to Michaelmas, 1834.

Tables of Rates, and all other information may be had at the Office of the Society, or of any of the Agents in Scotland.

This Incorporation is composed of a numerous and influential body of Proprietors; and affords unquestionable security to the public from the magnitude of its capital — a large proportion of which is invested in Government and real securities. By conducting its operations on an extensive scale, and over the whole Empire, it is enabled to equalize those vicissitudes which may arise from the influence of local causes; and, from the success which has attended this National Establishment, it is now permanently placed on a secure basis.

FIRE DEPARTMENT.

Property of every description may be insured on the most advantageous terms; common insurances of the first class at the reduced rates, and property involving more than ordinary hazard, at rates of premium commensurate with the value of the risks. All Losses, when satisfactorily ascertained, are *immediately paid.*

LIFE DEPARTMENT.—PARTICIPATION IN PROFITS.

Two-thirds of the profits are allotted at regular periods to the insured, without being subject to any deduction for charges of management. The first division will be made on 1st January, 1842, on the most equitable principles, in the proportion that each surviving person has contributed to the profit Fund.

A reversionary sum, equivalent to the present bonus, will be added to the original sum insured; or a corresponding reduction will be made from the future annual premiums.

REDUCED RATES.—NO PROFITS.

To facilitate Loan transactions, a reduced scale of rates has been adopted, which will be found particularly favourable to the Insured, especially for young and middle-aged persons.

Moderate rates are demanded for insurance against the contingencies of foreign climates, military or naval service, and voyages to distant countries; also for healthy persons above the age of Sixty, and for persons of all ages afflicted with gout, asthma, rupture, or other serious maladies.

Prospectuses, detailing more particularly the various advantages offered by this Incorporation to the public, with Tables of the Rates both for Life and Fire Insurance, may be obtained, by applying at their Office, No. 47 George Street, Edinburgh, or at any of their authorized Agents throughout the empire.

Note.—These additions become a vested right after a Policy has been in existence for *five* years.

The principles of division which have been adopted are such, that Assurers are all placed impartially on the same footing,—each individual having a proportionate share of profit allocated to his policy according to the period of its existence. No distinction is thus made, conferring advantages upon parties Assuring, at any particular period, at the expense of those who may enter at another.

The advantages of division of profits held forth under the most correct systems of mutual risk are thus realized, whilst, at the same time, the undoubted guarantee of a large subscribed Capital, affords perfect security for the fulfilment of the Company's engagements under all circumstances, relieving the Assured from that anxiety which must naturally exist where they alone are the parties liable to all the risk of an extended business of this nature.

In addition to the advantages offered by a large subscribed Capital, and the equitable principles on which the division of profits proceeds, the *Standard Life Assurance Company* has to hold forth to the public another regulation conferring peculiar benefit on Assurers, which is,—The provision, that a division of Profits shall be made amongst the Assured at the expiry of every five years. The importance of this arrangement must be evident to every one, as affording, in the *first* place, renewed opportunities of minute investigation into the Company's affairs; and in the *second*, great advantage to Policy-holders, by the frequent additions which will thus periodically be made to their Policies.

The other provisions and regulations for conducting the business of the Company are conceived on the most liberal principles for the encouragement of Assurance amongst all classes. The following are amongst them:—

No charge is made on parties Assuring, under the head of Entry Money, Admission Fee, or otherwise.

Premiums may be made payable yearly, half yearly, or quarterly, according to the inclination of parties.

Military men are not charged with extra premiums, unless called into actual service.

Persons whose lives are Assured, are permitted to pass and repass by sea, in time of peace, from any part of Europe to another, without application being made for such licence, or payment of any additional premium on account of the same.

No extra premium is charged for Foreign residence, temporary or permanent, within the limits of Europe; parties going beyond these limits are Assured on reasonable terms.

THE SOCIAL SYSTEM; a Treatise on the Principle of Exchange. By JOHN GRAY.

"A very clever production."—*London Courier.*

"Read the book!"—*New Monthly Magazine.*

"This book well merits an attentive perusal. It contains much which every man interested in the subject will be glad to read and reflect upon; and we do think the System merits a trial."—*Metropolitan Magazine.*

"The Lord Chancellor could not have stated Mr Gray's case more clearly than he has done himself. We recommend his work to all who have leisure and taste for such speculations, and wish the latter class were more numerous; and we take leave of Mr Gray with very great respect for his natural abilities, and a much higher opinion of his acquirements than he himself appears to entertain."—*Edinburgh Chronicle.*

"No one can read this book without having new ideas suggested, or being brought to look upon something in a new light."—*Literary Journal.*

"An important and philosophic work. It is full of novel views of society, and displays, generally speaking, more correct knowledge on almost

every thing connected with political economy, than we ever met with in the compass of a single volume." *Edinburgh Post.*

"A very extraordinary book, in which it is proposed to substitute an universal combination for the present system of competition, and thereby to render the demand necessarily commensurate with the supply."—*Chambers's Edinburyh Journal.*

"The author, being a commercial and a practical man, has treated his subject in a straightforward and intelligible style; and making no drafts whatever on the expected improvement in our moral attainments, nor resting any thing on the hope that we may ultimately become all of one mind, he has proved, in the most clear and lucid manner, that production may be rendered the uniform and never-failing cause of demand."—*Northern Whig.*

"Mr Gray does not content himself with throwing out *Delphic* hints, oracular of what may take place, by some possibility, in some indefinite future, but he goes at once into the *quo modo*, and shews that the Millenium of the Useful Knowledge Society may as well begin five years hence as five hundred."—*Birmingham Journal.*

CHAMBERS, 12, Duke Street, Edinburgh.

This is the only Company constituted in the Northern part of the Kingdom, exclusively for the purchase of Reversionary Rights — absolute or contingent — Annuities or Liferent Interests — Policies of Assurance on Lives — Shares in Government and Private Tontines — and, in general, of all rights extending over Funded or Real Property, or otherwise well secured — the emergence, or term of payment of which, depends upon some contingency of life or survivorship, susceptible of calculation.

Every Man of Business must have found, in the course of his experience, much difficulty in securing or realizing those rights belonging to his Clients, which, among the manifold relations of society and individuals, now so frequently arise, under Contracts of Marriage, Entails, and other Destinations, — Family Settlements, and similar Deeds, where limited rights of Liferent and Fee, depending in many cases on complicated contingencies, are secured to parties having separate and frequently conflicting interests. Even where the contingencies by which such rights may be defeated are comparatively of a remote and improbable nature, they nevertheless are found to affect their marketable value in perhaps a very disproportionate degree. For although a certain class of contingencies may be guarded against by Counter Assurances, through the medium of some one or other of the numerous Life Offices now established, still it is not easy at all times for individuals unaccustomed to the consideration of such matters, either to devise the most effectual means, as applicable to any particular case, of securing the protection of Life Assurance, or to provide the necessary funds for the payment of the requisite premiums. Parties are thus frequently under the necessity of leaving themselves without the protection of Life Assurance, and thereby running the hazard of having their otherwise valuable rights entirely defeated, or are forced to bring their contingent rights into the market under every disadvantage. But these difficulties, so formidable, and frequently so oppressive, to individuals, disappear, or are greatly modified, when a number of such contingent or reversionary rights are held by a Public Body or Company, who can, with comparative safety, on a large and collective scale, undertake the risk of contingencies, which, in any individual case, it would be most imprudent to hazard; or, if judged expedient, can readily command the means of resorting to the protection of Life Assurance, in the most convenient and efficient form.

THE NORTHERN REVERSION COMPANY has accordingly been established with the view of meeting the exigencies above alluded to. The accurate observations which have now been made on the duration of human life, the valuable practical tables which have been deduced from these observations, and the well ascertained *formulæ* by which such computations are regulated, enable correct calculations to be made, in almost every case, of the true worth and value of any reversionary or liferent right, depending on particular or combined contingencies of life or survivorship. While, in this way, the Capital of a Company may be safely invested with a reasonable prospect of remunerating profit, Parties having such rights to dispose of, and wishing to realize their fair marketable value, have the means of doing so afforded to them through the medium of this Company, without undergoing the expense and delay, and very frequently the disappointment, attending a Public Sale.

In order, as far as possible, to facilitate the transaction of business with the Company, Forms, adapted to various Cases, have been prepared, for enabling Parties, or their Agents, to tender Proposals of Sale. Copies of these Forms, as well as every other necessary information, may be readily had on application to the Secretary of the Company, at his Chambers, 12 Duke Street.

JAMES RICHARDSON begs to inform his Customers, that the BRITISH LINEN COMPANY having resolved to assimilate that part of their property which was occupied by him in *St Andrew Square to the National Bank's*, has obliged him to remove from their premises; but Mr R. has been fortunate in obtaining contiguous Wine Vaults at No. 44 and 48 WEST REGISTER STREET, third door, entering from *St Andrew Square by the National Bank*, where he will continue, as formerly, to keep a well selected Stock of Wines, imported from the first shippers and of the most approved Vintages. Mr R. has to express his gratitude to those who have favoured him with their orders, and to those who have not, he would earnestly recommend a trial, so that they may taste and judge for themselves, both as regards the cheapness and quality of the annexed list of Wines and Spirits.

BLUE WRITING INK.

Various *fluids* having been tried as substitutes for INK, possessing qualities more adapted, it is supposed, for *Steel* Pens in particular,—but upon the permanence of which no reliance can be placed:—the Subscribers have been induced to turn their attention to the possibility of so manipulating WRITING INK as to impart *to it* all the desired qualities without detracting from those properties which long experience has approved.

They have submitted to the Public a Writing Ink manufactured on these principles. It is labelled,

MORISON'S
BLUE WRITING INK, Nº 2;

and is sold in bottles at 6d., 1s. 6d. and 2s. 6d., each bottle bearing a fac-simile of their signature, and sealed, "MORISON, PERTH." The Blue Writing Ink, No. 1, is an ink which remains *permanently a bright blue*, and is useful for many purposes; but the Blue Ink, No. 2, is that which is most adapted to business purposes, being very fluid and pleasant to write with,—not liable to encrust on the Steel Pen,—not subject to erasement by marine acids,—of a soft blue colour when written with, and which turns to an intense and DURABLE BLACK, of a fine blue shade.

The favor with which this Ink has been received, wherever it has yet been introduced, is the best proof of the entire success which has attended the manufacture.

This Ink may be had of all the Booksellers and Stationers who sell the other Writing Inks manufactured by the Subscribers. The character which the Inks of their manufacture have so long maintained, is the best security that they shall offer no article to their customers which has not been previously thoroughly tried and approved of.
